DETAILED ACTION

Claims

1. Claims 1-8 are pending.

REPEATED REJECTIONS

2. The 35 USC 103(a) rejections of claims 1-8 as being anticipated by Isakson et al. (US 4,640,838) are repeated for the reasons of record in the Office Action mailed 19 June 2008, page 2, paragraph 1.

ANSWERS TO APPLICANT'S ARGUMENTS

3. In response to Applicant's argument (*p. 4, para. 4 to p. 6, para. 4 of Applicant's Paper filed 18 September 2008*) that Isakson's ('838) valve does not make any sound when pressure increases inside the package and forced out through the rupturing valve, it is firstly noted that Applicant's invention is interpreted as being directed to a valve that is capable of making a sound and not towards a method of making sound with a valve. Whether or not Applicant's valve makes a sound depends on how the valve is used and external conditions it is subjected to. Applicant does not set forth any particular decibel level of sound, any particular duration of sound generation or tune created. When Isakson's ('838) valve applied container containing food such as corn is placed in the microwave, pressure is generated causing the valve to rupture open and release gas to the outside and clearly generating sound to at least a minimal degree. Thus, Isakson's ('838) valve is clearly capable of and does generate sound during use.
4. No further precise arguments are set forth than already discussed above.

5. THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
